ALC-Collegedale Exhibits in PITTCON's "Green Corner"

Chicago, IL, March 8, 2009 – ALC-Collegedale shows “The Colors of Green” at Booth 3869 during PITTCON 2009, being held March 8-12 in Chicago. The company is displaying products made of recycled materials, certified wood, rapidly renewable materials, and products containing no added urea formaldehyde, all of which can contribute to meeting the Leadership in Energy and Environmental Design (LEED[®]) criteria.

On display are the GreenG³ fume hood, the first product utilizing Erlab's GreenFumeHood[®] technology, e³ adaptable laboratory furniture, and both metal and wood casework products.

“ALC-Collegedale has long recognized the growth of green building and sustainable development initiatives in the construction industry, and we are committed to supporting customers who want environmentally friendly, functional, and safe products,” said Chip Albright, ALC-Collegedale's President and a certified LEED AP.

ALC-Collegedale is one of the largest manufacturers of laboratory furniture and fume hoods in the United States. With over 75 years of experience, the company is uniquely qualified to bring innovation to the market.
